Reporting

Enforcement

Part II

Prescriptive Regulations
General Discussion

Prescriptive Standards (Matrix?)
BOD
TSS
FC
Ponding
Nutrients

Receiving Environments
Identification and quantifying
Community concerns and local standards

Product Performance/Approval

Site Evaluation
Site structure and identification
Physical features
Soil profiles and patterns
Characteristics of soils that determine suitability (Matrix?)
Repair, replacement, existing construction
Availability of suitable soils

Design
Sewage Flows (review data and basis for estimates)
Treatment devices
Dispersal method
Materials and appurtenances

Construction

Operation
Operation Permits
Inspection
Qualifications to inspect (who)
Reporting requirements (what, when, and where to report)
OP
Time of transfer
Reporting frequency (how often)

Administrative
Purpose of the regulations
Advisory Committee

- Appeal Review Board
- Application process
 - Site approvals (certification letters)
 - Construction authorization
- Denials
- Conditional Permits
- Enforcement
- Variances
- Appeals
